

Hosted Microsoft Exchange

Reliable, Secure Communication

OUTSOURCEIT

The Industry Leading Communication Tool

Your business demands reliable and flexible communication tools. OUTSOURCEIT provides hosted solutions for Microsoft Exchange Server—the most powerful business communication tool in the industry. With our hosted services, OUTSOURCEIT can enhance your productivity, lower costs, and provide reliability and protection to help you manage risk.

A Flexible, Reliable, and Mobile Platform

Whether your users need to communicate across town or across the country, OUTSOURCEIT hosted Microsoft Exchange provides fast and secure access to email, voicemail, instant messaging, and more. Because all mailbox data—including contacts and calendar—is stored centrally on the Exchange Server, users can connect utilizing a variety of devices to view their entire mailbox and seamlessly synchronize across multiple platforms.

A Trusted Provider

Your business relies on email as one of the most important means of communication, so you need a provider that offers the most secure infrastructure available. OUTSOURCEIT provides the most robust hosting services in the industry for our clients.

Reliability and Uptime

We offer a 99.999% uptime service level agreement.

Our multi-million dollar, Fortune 50 infrastructure includes datacenters featuring Dell, EMC, and Cisco hardware and multiple connections to Tier-1 Internet providers—assuring high availability and the fastest round trip for your email.

Seamless Integration and Compatibility

OUTSOURCEIT can upgrade users of older versions of Exchange as well as POP email users.

Many Exchange hosting companies do not offer both Outlook (for PC) and Entourage (for Mac) support—but we do. We also offer free Outlook Web Access (OWA) 2010—which works on all major web browsers—allowing users the ability to access their email online from anywhere.

Strict Security and Compliance

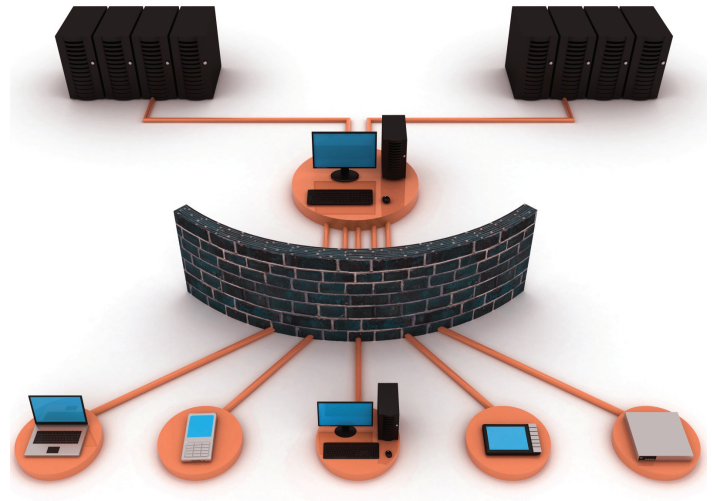

OUTSOURCEIT adheres to the industry's strictest regulations for security and compliance. Our service is backed by an SAS 70 Type II audited location with an auditing statement issued by the Auditing Standards Board of the American Institute of Certified Public Accountants (AICPA).

Benefits

- Increased reliability and performance with 99.999% uptime
- Low monthly cost
- Full browser support and Free OWA 2010
- Larger mailbox options—up to 25GB of storage
- PC and Mac compatible

Hosted Exchange

OUTSOURCEIT delivers the hosted services our customers demand for reliable and secure communication.

Hosted Exchange Plans

Exchange 2010 Standard Plan

- 5 GB Mailbox (per user)
- Outlook or Entourage (per user)
- Outlook Web Access
- Premium Antivirus/Antispam
- Regular Backups

BlackBerry Enterprise Server

- True Wireless Push Email
- Two-Way Sync for Email, Calendar, Contacts, and Tasks
- Device Policies

Add-On Features

BlackBerry® Services and ActiveSync for Windows Mobile

Instantly activate email service for your handheld. Rather than spending thousands of dollars on your own server, you can use our managed services for just a few dollars a month.

SharePoint

Compare notes, collaborate, share schedules, and work together on virtually any type of file—anywhere, anytime, on any web browser.

Office Communications Server 2007

Streamline communication and manage all real-time (synchronous) communications including: instant messaging, VoIP, and audio and video conferencing. Works with existing telecommunications systems, so you can deploy advanced VoIP and conferencing without tearing out legacy phone networks.
